I have a lightly used Xbox 360, with 2 wireless controllers with charging dock, and 7 games. The games are: battlefield 3 premium edition, Madden 2009, Resident Evil 5, Resident Evil 6, Gears of War triple pack ( has 1, 2, and 2 expansion), and South Park "stick of truth". It has never had the "red ring of death" and works perfectly. I can meet at the Ripley Walmart.
