Price:

350.00 \$

Espresso convertible crib to toddler bed. Furniture is from the Baby Appleseed collection "Davenport." I have all pieces to convert from crib to toddler bed, as well as the instruction book on how to assemble. I will include the mattress if needed. Practically brand new and has always had a cover on it. I have included a picture of the area that could use a furniture touch up pen and it would look brand new! There are also two good size drawers under the crib. It is currently assembled as a toddler bed. Retail price from collection is \$799. Feel free to email me with any questions!
