Address:

Historic District, Gallatin

Price:

175.00 \$

This desk is a beast! All solid wood with a black finish. I believe it was custom built by the previous homeowner. Three base units measure 28" high-two drawer cabinet with dividers is 36" wide, computer tower unit is 17" wide, and shelf is 21-1/2" wide. L-shaped laminate counter measures 71" x 92-1/2" and includes a slide out keyboard tray. The two hutches measure 54" tall and each have 3 adjustable shelves. One is 48" wide; the other is 36" wide. You could configure the bases and hutches into a smaller setup if you found a different top, as all of the pieces are separate.

Tons of mitered corners and all solid wood-no particle board. Must be willing to pick up at my home in Gallatin and be able to load yourself. I can't lift it!
