I have a newer Queen bed set that includes an almost new mattress, bed, comforter and a set of unopened queen sheets. The bed is in great condition and I still have the warranty info on the premium mattress which is only about 1 year old. There are NO bedbugs. This mattress has a stain proof mattress protector along with a pillow top mattress cover. We have a King now and don't have room for this bed, otherwise we would keep it. Asking \$465 OBO.
