It has been disassembled for transport and is ready to go! This is a fantastic desk but it would make an unbelievably amazing kitchen island! All you would have to do is take off the back panel, drop the drawer, and secure it the way it is and then put it up on wheels. I included a picture of similar Island that we have done in our home. The pull outs become you're cutting boards ;)

61 wide 34 and a half deep 31 tall
