I have a full set 2-9, PW and 1,3,4, and 5 wood of golf clubs. They are Ben Hogan Producers, most with the original grips. I got these from my grandfather when he passed away, but I know very little about them. They are from the 70s, and look like they're still playable, but definitely vintage. I put \$65 as the price, guessing at \$5 a club, but open to offers.
