I have a PS3 and a PSP for sale. First with the PS3, works great have the hook ups but no controller. There is also a lil piece of plastic that has come off on the top back but it does not mess with the functionality of the unit. Comes with two games, NHL 12 and Call of Duty Black Ops 2 both are in perfect condition. I'm asking \$60 for all of that. Now for the PSP, I have the system with the charging cable an wall plug in, 7 games which include God of War Ghosts of Sparta, 300, Mercury Meltdown, Socom US Navy Seals Fireteam Bravo 2, Grand Theft Auto Liberty City Stories(which comes with map), an Tiger Woods PGA Tour '08 and '10. Comes with 2 memory cards one 32mb and one 4gb, and a carrying case that holds it all. I'm asking \$120 for all will not separate any of it so it's take all. Everything works and plays fine, there are no sticky or hard push buttons on the unit as well, all in great shape.
