I just got this galaxy s8 through Verizon about a month ago but I now need to downgrade to a cheaper phone.

The phone is basicly brand new and is in perfect shape. Comes with a free case that was \$30 and a "military grade" screen protector.

I'm just wanting to get what I still have to pay on the phone.

It's through Verizon but I know tmobil can use it and others that use SIM cards should be able to too.
