Address:

Wilmington Newark

Price:

125.00 \$

This is a commercial grade Hamilton Beach Scovill Triple Milkshake Maker. It comes with two aluminum cups to start making delicious milkshakes or other mixing needs. The unit powers up and all three motors work. This is a very heavy duty machine that weighs roughly 25 pounds, so it is not cheaply made from plastic like a lot of other products are these days. It is the kind typically seen in a restaurant or ice cream shoppe.

The middle mixing rod is missing three little blades but it still mixes. The metal holding plate is also missing on the middle mixer. Both parts are available online for about \$12 total. Each of the three mixers has a Low, Medium, and High speed and all are working fine.
