100.00 \$

Tower Garden Growing System

Ready to grow your own vegetables, herbs, fruits and flowers the easier way? Buy our used tower garden @ \$100 each.

The Tower Garden is a smarter choice economically. But it's also a smarter choice environmentally, requiring only 10% the space and as little as 2% the water as traditional growing methods to grow 30% more three times as fast. (You can learn more about the advantages of aeroponics here.) And Tower Garden recycles! Water and nutrients recirculate the closed-loop system over and over again.
