Address:

Lexington

Price:

180.00 \$

This camera is in fantastic condition, barely used. Nothing wrong with it, I used it once at a friends wedding and a few Special Olympic basketball games. All images attached for you to see the features and accessories I took, expect for one. I found a 'stock' image online that showcases the camera better than I can do with my phone, so I attached it also.

It comes with the following:

- Len's protector with secure strap, so the lens cap doesn't get lost.
- Carrying case with strap
- Lens Cloth
- Large and small tri-pod's
- Blank 32BG storage card
- Four (4) brand new batteries.

Brand new, it cost \$240.00 in January 2016.

This camera does high resolution photos and videos from near, far and everywhere in between. It has a 28x optical zoom, a 16.1 megapixel sensor and has the ability to reduce noise. It's has 10.1 megapixels for photos and allows for HD video up to 1080p.
