https://ky-fayette.countybuyselltrade.com/electronics/ti-89-titanium-graphing-calculator_lexington_42028

Address:

Lexington

Price:

100.00 \$

It's in great condition and a necessity for advanced math classes. Brand new it retails for \$130. It features advanced functionality and 3-D graphing that makes problem-solving for advanced mathematics (diff equations, linear algebra, Calculus I,II, III, etc) and engineering courses easier. It has a built-in computer algebra system which allows you to explore and manipulate mathematical expressions in their symbolic form.

I checked with the TI-89 website, and it has the most current software operating system available.

App's Include:

- Cabri Geometry
- Calculus Tools, great for Fourier series, vector analysis, series and sequences, etc..
- CellSheet , create formulas, build functions, import/export info from Excel
- EEPro, electrical engineering with more than 700 built in equations
- Finance, Time-value-of-money (TVM) formula, uneven cash flows, amortization schedules
- Geometer's Sketchpad, you can construct, create and transform mathematical models and

geometric drawings
- MEPro, Mechanical Engineering Calculus, over 700 equations
