Bought in 2016 for the spare room and ALWAYS used with a mattress cover. No pets were ever allowed on the bed. I never even allowed people to sit on it without a cover.

Pillow top firm. PERFECT for people who don't want to sink into their bed. Paid close to \$900 on SALE, but selling for only \$500. This mattress looks brand new still. Comes with high profile foundation. Trying to lighten the load for moving. Plus it is too tall for me.

In Plastic it came with already, so ready to move!!! After today it goes into storage!

Don't want the high profile foundation? Buy JUST the mattress for only \$300!!
