This is a vintage Schwinn road bike on a Bell stationary bike resistance trainer. Nice set up, huh? It works great for a stationary bike. The bike itself isnt in bad condition, but isnt road worthy. It needs new tires. The bike trainer is only a year old and will work with other bikes if you have one already. Very easy to hook up. Take just the trainer stand for \$30, or the bike + trainer for \$50. email or txt me. Evan 85ive8-twozero4our-011zero NO CALLS PLEASE
