Address:

West End, Al

Price:

500.00 \$

This laptop is practically brand new, I still have the original box that it came in. I bought it new in July 2016 at Best Buy for \$800. There was very minimal use over the last year for a few research papers and the uploading of photos via dropbox. After trying a non-apple product for the first time, I realize that I am truly a Mac person and miss Apple. Have a look at the photos, it is touch screen and can also be used as a tablet. It is also great for digital artists who enjoy working with a stylus pen.

I would like to meet in person for a cash only exchange. Thank you in advance for your understanding.
