We have had this wicker patio furniture for 2 years and for the last year+ it has been in our house. We moved homes and didn't have enough room to enjoy the furniture outside. We are very sad that we have to let the items go but we just have no use for them - we would need have a separate storage unit to keep. The furniture is in perfect conditions, it comes with all pieces (10), cushions and pillows with tags still on them! We are looking to sell all items together.

Total Pieces

1 loveseat

2 full chairs

2 chairs

2 fluffy foot rests/pillows

1 Storage box for pillows etc.

2 end tables

1 coffee table

1 planter (we converted to another table - the marble top comes out)
