6 Mega Bloks Dragon Krystal War Sets

1 Lego Set #8877 Knight's Kingdom

13 individual Mega Bloks Dragons

After researching similar pre-owned kits/dragons, the total for all these (on the very LOWEST side) comes to approximately \$300. Although all the pieces should be in tact, they may be mixed up in the various boxes, as we had, at one point, every "scene" and every dragon on display on a huge table. Once unessembled, they were put back into the boxes, but I'm sure the pieces are mixed up. If a dragon is missing a gem or a part, it's at the bottom on the tote. There is also a bin of lego pieces, horses and knights.
