Address:

Lawrence/Baldwin City

Price:

3.75 \$

I have recently expanded my flock of hens and now have eggs for sale.

My hens are free range. They are guarded day and night by a wonderful dog who keeps us up all night barking away raccoons and possum. But it's worth it. The hens are safe and they know it.

Instead of chicken tractors or coops or runs, these girls have access to fenced pasture. The eggs show the difference....orange yolks. Rich taste. The hens are fed local non GMO feed I buy from a local farm.

You are welcome to come my little paradise anytime to see where your eggs are coming from. If you need to deal with stress....you are welcome to just sit with them! They are great company and bring a calm that you can carry back home with you.

I will deliver eggs to Lawrence (east of Wakarusa):
