Beautiful ebony black 3 1/2' Baby Grand piano, small enough to fit in a smaller space, electric, piano has gorgeous sound and you can also play discs for parties (included), etc., top opens just like bigger grand pianos, bench included. 7 years old, rarely used. Also great for displaying family photos! Looks perfect in an elegant living room and doesn't take up as much room as a regular sized baby grand. Would make a great Christmas present!!!!
