Address: **Exeter**
Price: **4500.00 \$**

Tippy Dump BrewSculpture™

A 10 Gallon homebrew system.

Famous for its innovative tipping Mash Tun, the Tippy-Dump BrewSculpture™ allows you to easily dump spent grain after mashing. Place a garbage can on the built-in step, tip the mashtun and your done... no heavy lifting or scooping necessary! Inspired by professional brewpub brewhouses, which are designed to fit in tight spaces, the mashtun is placed directly over the hot liquor tank. This not only saves space but also allows for heat coming off the hot-liquor tank to help keep the mashtun warm during the mash.

Made in USA in the MoreBeer! Metal Shop

304 Stainless Steel TIG welded stands. The ultimate frame material that will outlast you. No paint or powder coating.

Every BrewSculpture™ includes folding handles and built-in rear casters that allow you to move your BrewSculpture™ with ease.

Oversized 1.304 stainless Brew Pail Kettles with welded fittings, mesh on lids, internal catch volume, aluminum legs, casters, and stainless handles.
