Whirlpool 7.0 Electric Dryer with 13 cycle options for a variety offabrics. We purchased in January 2017. This is still under warranty but I don't know if the warranty transfers from the original owner to someone else. It works great but we purchased a matching washer/dryer set so are selling this one. This regularly sells at Home Depot for \$649 and at Sears for \$659. We are asking \$325 CASH.
