The Cintiq 22HD's combination of a 21.5-inch HD, wide-format LCD and Stylus Pen Input from Wacom® enables photographers, designers, and other creative professionals to work naturally and intuitively directly on the surface of the display with Wacom's pressure sensitive pen technology. This Cintiq 22HD professional pen detects pressure and tilt, giving you control over pressure sensitive pen effects, such as line weight, opacity and exposure. Plus, the ambidextrous design of the Cintiq 22HD features a pair of rear-mounted Touch Strips, along with accompanying Touch Strip Toggle Buttons which control of up to four application-specific functions on each Touch Strip, such as brush size, zooming, scrolling and on-screen canvas rotation. Additionally, the Cintiq 22HD features Wacom's traditional Cintiq stand that allows you to rapidly adjust the angle of the display and rotate it up to 180 degrees in either direction. In addition, the Cintiq 22HD Grip Pen, which detects 2048 levels of pressure, has customizable side switches that allow you to program common functions into the pen itself. All in all, the Cintiq 22HD features sixteen programmable ExpressKeys (eight on either side) that put convenient keyboard shortcuts and modifiers right at your fingertips. Like new condition.....If interested please call 765 413-4883 Price is \$950 or Best offer.....
