Address: **hutchinson**  
Price: **1300.00 \$**

(1956 Minneapolis Moline) This tractor is not currently running this is a project that will need some work. I bought this tractor as a project and have found myself heading in another direction so I am not looking to sell, I have made some repairs for this tractor like new motor wiring and hydraulic oil, and I also have the complete repair manual that I will include with the purchase.

Back Ground on this tractor..

I bought this tractor for a little old lady that was selling her deceased spouse's tractor she could not tell me much about this tractor but she said that her husband drove this tractor around the block a few times two years before he died. When I bought this tractor the three point hydraulics was removed and stored in her garage.

Full Disclosure.. (Issues that I know of)

1. Both wheel seals need to be replaced.
2. Both break petal rubber oil seals
3. Starter
4. Battle
5. Seat
