Well, I got a newer model so I felt it might be time to trade off my Original Sodastream. For those that don't know, you don't even have to use the syrups, I never did, Black Cherry and Orange Mio made some of the best Soda I could drink while trying to cut back on Sugar.

The Unit is in great condition, the Bottle currently installed is probably half empty, and I have another Bottle still sealed and ready to go.

I'm looking to Let this bad boy go for \$60. It will have to be a pick up from my house in Mira Mesa, but the price is Negotiable. As a man of science I've loved what Sodastream Units can do, I'm a heavy soda drinker so being able to make my own carbonated water was amazing. Thank you for reading my ad.

Here is the link to the Amazon page, obviously this model isn't for sale anymore since it was Gen 1, All Standard 1 Liter Sodastream bottles with threads will fit this unit.

The Customer reviews actually gave me a few new Ideas for my newer unit. Which in hindsight was exactly what I needed. The light up indicator on the front
