Just paid \$1500 for this couch from Raymour & Flanigan Furniture and Mattresses that we cannot use (Just FYI This company is so awful they told us we could exchange it for a credit if it didn't fit properly and then when we realized it really doesn't they told us we can't exchange it- they are completely unethical do not buy from them I am so disappointed) That being said its a beautiful couch and should be used by someone. Contact me if interested and I will negotiate the price. Again It is brand new just delivered today. You can see all the specifics below and I've attached pics:
