Address: **Milan**
Price: **80.00 \$**

This is a great bike!

I bought this bike brand new in the early 2000's. It retailed for \$350, was on sale for \$175.

The axle was slightly bent. The wheel is a little bit wobbly, but it doesn't affect anything else.

I have 3 seats for it. The original and two other gel seats. It currently has a full size gel seat on it.

Some of the foam covering on the handle bars is split.

I bought a recumbent for my wife because she can't sit on this one anymore after back surgery and we need more room.
