Henderson's signature Thermoprene neoprene. This neoprene boasts 180% super stretch, giving the user a lot of flexibility and comfort. The neoprene is laminated with pill and abrasion resistant fabric for durability. All seams are sealed, meaning glued and blindstitched, to prevent cold water from entering the suit. Edges at the cuffs are lycra trimmed for comfort and chafe resistance.

All Thermoprene fullsuits have durable back zippers with a spine pad to protect the back and a zipper seal to prevent leakage. Freedom Flex knee pads give needed durability without extra bulk around the knees. The neck is adjustable to give you a customized fit.
