I have a folding electric bike that works fantastic! It's about 3 years old, but has not been rode very much! I have the charger and owners manual! It's has a zipper bag in front and a basket on the back and a gel seat cover for your tush! You can pedal or just use the electric, or you can pedal assist but you don't have to pedal assist! Great for campers, or if you need a little extra help while biking, or if your just lazy and don't want to pedal!!

If interested please text me at

Please don't email me- I never check my emails!
