Nestled at the end of a dead end road, is this 3bd/2ba home w/ a 2 car garage. This property definitely has the potential to hold & grow trophy whitetails. Approximately 40 tillable acres spread out throughout the property, balanced by timber and open land, make for excellent food plots. Apple trees on the property will also attract deer in the fall. Gently rolling topography & trails permit easy access. Definitely the perfect spot to grow some trophy whitetails, and only minutes from town!
