Price:

KU Campus, Lawrence
Free

We are interested in the way parents talk to their children about diversity, race, and other social issues. We are looking for parents and children (ages 10-12) to participate together.

We will ask you to come in to one of our two labs (Lawrence and Overland Park), watch a couple of video clips, and participate in an interview about your experience. The study should take less than an hour. Participants will be paid \$25 in the form of a gift card and parking is covered.

Interested? Contact kuparentstudy@ku.edu to schedule an appointment time.
