This entertainment combo in like-new condition is lighted in all three pieces, solid walnut, and priced to sell. Two curio cabinets with beveled glass doors and glass shelves frame deep bottom cabinets that can be used separately or as part of a wall unit. The large middle section can be repurposed for shelving and has a ton of storage space up top and on the bottom. I still have the original paperwork. Don't miss this bargain! I'd keep it, but I'm downsizing my furniture. I promise you'll love it!
