Address:

Waupaca

Price:

Free

These are very good android smartphones, with exceptional antenna systems for good reception and Motorola quality.

They operate on both GSM,CDMA,HSPA & LTE Technology.

Phones have been in "Unicorn Beetle" cases since purchased. It has a very good AMOLED touchscreen, which has been protected by the original screen protector as well as the case screen protector, therefore the phones are in like new conditions.

The pricing of \$110 for each phone includes cases, original packaging and charger.

A family bundle of \$250 for all three would be acceptable.
