For Sale is this Halex gaming table with a dining top in an oak finish, (not laminate), with 8 chairs for \$425 OBO. When the flat top is lifted it becomes a poker table on the underside of the top; the next level changes to a roulette table and below that is a felt-lined dice table. This table will make you the envy of the neighborhood. It also is a great place to gather for that pre-game meal and adds charm and distinction to ay room. These tables sell for \$1,500 - \$3,400.

The table is octagonal in shape and the size is 33" high x 48" wide. Must see to appreciate.
