I have upgraded to a 150-600. This has been a WONDERFUL lens. You can go to my Nature Made Photography Facebook page to see the images it has taken. Retail new \$1100. I used it on my Nikon D3200 mostly, but also on my Nikon D600. Message me with specific questions. Just google the specs. Contact me for specifics (If I have to ship it, you need to add \$30.00
