Currently in Petersburg and homeless with four kiddos. Looking for anything that could be month to month until we get more permanent housing (which we are working on). House, trailer, camper, tent space (w/access to bathroom facilities), basement living space, ANYTHING!

I have four sons ages 11yo to 3yo. We do have two fixed female labs that are well behaved, quiet and house broken. They are the one constant in my kid's lives as well as medically helpful due to their ability to alert to hypoglycemic events for one of my sons. If that's a deal breaker, we can find temporary homes for them, just would be hard to be without them.
