Address: Price: stephenville 1300.00 \$

I am selling my Nikon D700 and extras for \$1300. I could ask almost that for the camera body alone. The lens in the box is worth 250 or more as well. Plus all of the memory cards that are atleast \$20 each. Then there is the battery pack, extra battery, charger, lens filters, zoom lens, macro lens attachment, and wide angle lense attachment, a USB cord, a carrying case for memory cards, and screen protector. Just message or comment if interested. I need it gone. Spread the word! Camera is in great condition with no obvious signs of wear. Has always had screen protector on it. The camera just needs a professional cleaning on the inside to remove a few dust particles. It also comes with the the manual.
