I have a Blue 16GB iPod 5th generation. I bought it in November 2014, and I've had it since. No scratches, kept very well. Taken care of. I just got an iPhone 6, so I have no need for this. Charger included (Cable, not box). I paid \$250 brand new, out of the box. I can try to find the original box for it, but I can't promise anything. (I lose things easily)

Please only contact me for serious offers. Thanks!
