Address: **Greenville**  
Price: **600.00 \$**

Had a problem with my surface so I had it replaced under warranty from Microsoft (New, not refurbished). Took it out of the box and decided I wanted something else. Brand new, fresh out of the box, factory default. Comes with type cover (used condition. Retails around \$80), surface pen, and power supply. All together cost me roughly \$900 brand new. Still under warranty until 2/11/16. Great for students or someone that needs a portable computer.
